

## SHREEKANTH B N (ReactJs-Developer)

Bengaluru-562130 | [Shreekanth9897@gmail.com](mailto:Shreekanth9897@gmail.com) | (990)-275-9706 | <https://www.linkedin.com/in/shreekanth-b-n>

### PROFESSIONAL OBJECTIVE:

---

"To leverage my expertise in frontend development, specializing in JavaScript, along with frameworks and libraries such as React Js and Angular, to create dynamic and user-friendly web applications. I aim to contribute to a forward-thinking team where I can apply my skills in UI/UX design, performance optimization, and responsive development, delivering exceptional digital experiences and driving impactful results."

### TECHNICAL SKILLS

---

- Frontend Development:
  - Languages: JavaScript, TypeScript
  - Frameworks & Libraries: ReactJS, Angular
  - Styling: HTML5, CSS3, SASS, LESS, Bootstrap
- Version Control & Collaboration:
  - Tools: Git, GitHub, GitLab
- API & Backend Integration:
  - Technologies: RESTful APIs, GraphQL, AJAX, JSON
- UI/UX Design:
  - Skills: Wireframing, Prototyping, User-Centric Design, Figma, Adobe XD
- Build & Automation Tools:
  - Technologies: Webpack, Babel, NPM, Yarn
- Testing & Debugging:
  - Tools: Jest, Jasmine, Cypress, Karma, React Testing Library, Chrome DevTools
- Performance Optimization:
  - Techniques: Lazy Loading, Code Splitting, Caching, Responsive Design
- State Management:
  - Libraries: Redux, NgRx, Context API
- Design Patterns & Best Practices:
  - Concepts: Component-Based Architecture, SPA (Single Page Applications), MVC, SOLID Principles
- Cross-Browser Compatibility & Accessibility:
  - Skills: Ensuring consistent user experience across browsers and devices
- Soft Skills:
  - Communication, Problem Solving, Team Collaboration, Strong Analytical Abilities

### EDUCATION

---

Vivekananda Institute of Technology, Bangalore, India 2015 - 2019  
Bachelors in Electronics and Communication Engineer | Major: Electronics | Overall CGPA: 6.8

### WORK EXPERIENCE

---

IBM India Private Ltd, Bengaluru 2021 - 2023  
Application Developer

- Developed and maintained high-performance web applications for leading healthcare and financial clients, focusing on responsive design, cross-browser compatibility, and optimal user experiences.
- Created reusable React components to standardize the UI across projects, improving development efficiency and consistency.
- Wrote high-quality, reusable, and maintainable code adhering to best practices in software development.
- Collaborated closely with UX designers to translate wireframes and prototypes into functional applications, ensuring seamless integration of design and functionality.
- Partnered with backend developers to integrate APIs and develop dynamic, data-driven user experiences.
- Implemented responsive design principles and utilized modern CSS frameworks to ensure compatibility across multiple devices and screen sizes.
- Managed complex application states using state management libraries such as Redux, enhancing the scalability and

maintainability of the applications.

- Actively participated in code reviews, peer programming, and testing to maintain code quality and ensure best practices.
- Worked on critical applications such as RTA-common, RTA-payer, and RTA-Provider, consistently delivering tasks on time and exceeding client expectations.
- Handled error handling, debugging, and troubleshooting to resolve software bugs, resulting in enhanced application performance and stability.
- Stayed updated with the latest trends and technologies in web development, continuously incorporating new techniques to improve application performance and user experience

**Wistron Infocomm Manufacturing Pvt Ltd, Bengaluru India**

**2020 – 2021**

### **Junior Software Developer**

- Developed scalable backend solutions and contributed to frontend development for healthcare management software providers, enhancing the software's performance and reliability.
- Used JavaScript (ES6) to build cross-browser compatible user interfaces, ensuring a consistent user experience across various platforms.
- Designed and developed a new interactive landing page using HTML and CSS, enhancing the overall user engagement and site navigation.
- Worked alongside web designers to create user interfaces and prototypes for a web-based internal financial management system, improving the system's usability and accessibility.
- Implemented form validation using JavaScript to ensure data integrity before submission, improving the overall application security.
- Applied advanced CSS techniques, including background properties, layouts, positioning, text, borders, margins, padding, pseudo-elements, and behaviours to enhance the visual appeal of the applications.

## **PROJECT**

---

### **Fast-Infra (HSBC)**

- Developed key components for HSBC's internal infrastructure management system, enhancing the efficiency of operational workflows.
- Integrated RESTful APIs and utilized state management techniques to streamline data flow and improve the user experience.
- Contributed to the development of a high-performance infrastructure monitoring tool for HSBC, focusing on frontend development using React and Redux.
- Implemented real-time data visualization components, enhancing the monitoring and management of global infrastructure.

### **CVS Healthcare**

- Contributed to the development of a comprehensive healthcare application, focusing on enhancing the user interface and experience.
- Implemented performance optimization strategies to reduce load times and improve application responsiveness.
- Developed user interfaces for a healthcare management system, integrating complex API data into a seamless user experience.
- Worked on responsive design and accessibility features, ensuring the platform was user-friendly across different devices and for users with disabilities.

### **Abu Zaki**

- Designed and developed core features for a complex, high-traffic application, ensuring scalability and robustness under heavy usage.
- Collaborated with cross-functional teams to deliver a seamless end-user experience, incorporating UI/UX best practices.
- Designed and implemented an e-commerce platform for a retail client, focusing on creating a scalable and modular frontend architecture.
- Integrated payment gateways and ensured cross-browser compatibility, improving the platform's reach and user engagement.

## CERTIFICATION

---

JavaScript Frontend Development-Badge-Certificate - IBM	Present
AWS Certified Cloud Practitioner certificate – AWS	12/2022 - 12/2025
Angular Certificate -Udemy	Present
AI and Watson certificate -IBM	Present
Typescript Certificate -Udemy	Present
React JS Certificate -Udemy	Present

## PROFESSIONAL DEVELOPMENT

---

- Participated in workshops and training sessions on Embedded technology and other software Technologies practices.
- Continuously engaged in active learning to stay updated with the latest industry trends and technologies.
